- An explanation of your proposed action and its purpose:

The proposed action is a correction of Amdt. 135-66, Eff. 3/19/97, FAR Part 135, Subpart J, Section 135.427 (a), which currently states:
Sec. 135.427

Manual requirements.

(a) Each certificate holder shall put in its manual the chart or description of the certificate holder's organization required by Sec. 135.423 and a list of persons with whom it has arranged for the performance of any of its required inspections, other maintenance, preventive maintenance, or alterations, including a general description of that work.

The proposed correction is to remove the incorrect reference to section 135.423 and insert the correct reference of section 135.424. The purpose of this proposed amendment is to enhance the accuracy of the references in the regulation. Section 135.423 (Amdt. 135-92; Eff. 12/8/2003) describes the "Aging airplane inspections and records reviews for multiengine airplanes certificated with nine or fewer passenger seats." Section 135.424 describes the "Maintenance, preventive maintenance, and alteration organization."

- The language you propose for a new, or the citation and proposed language for a rule you would like to amend, or the citation and language you would remove from a current rule:

Sec. 135.427

Manual requirements.

(a) Each certificate holder shall put in its manual the chart or description of the certificate holder's organization required by Sec. 135.424 and a list of persons with whom it has arranged for the performance of any of its required inspections, other maintenance, preventive maintenance, or alterations, including a general description of that work.

- An explanation of why your proposed action would be in the public interest.

To provide Air Operators with a correct reference from which they can obtain the correct information required to comply with Section 135.427.
